

REMARKS

By this Preliminary Amendment, Applicants have made corrections to typographical errors in lines 5 and 6 of the Specification to recite “wavenumber” instead of “frequency”. The language “frequency” was a mistranslation of “wavenumber”, which is the term more typically used in reference to Raman spectra, as is known in the art.

Prompt examination of the application is respectfully requested.

Respectfully submitted,

/Jessica M. Egner, Reg. No. 51,646/
